

## HIGHLIGHTS OF INTENZ

### LONG Lifetime thanks to COOLHEART™ Technology

Patented technology that keeps the heart of the highbay cool at any external temperature and circumstance.

### True 1-on-1 replacement thanks to ZERO inrush current

With Plug & Play installation our LED devices can be retrofitted to almost any classical installation. Save a tremendous amount of initial costs when changing from conventional light to LED.

### Smart Lighting

Keep pace with fast evolving technology developments. Connectivity. Sensoring. Remote light management: We are ready for it. You can be too.

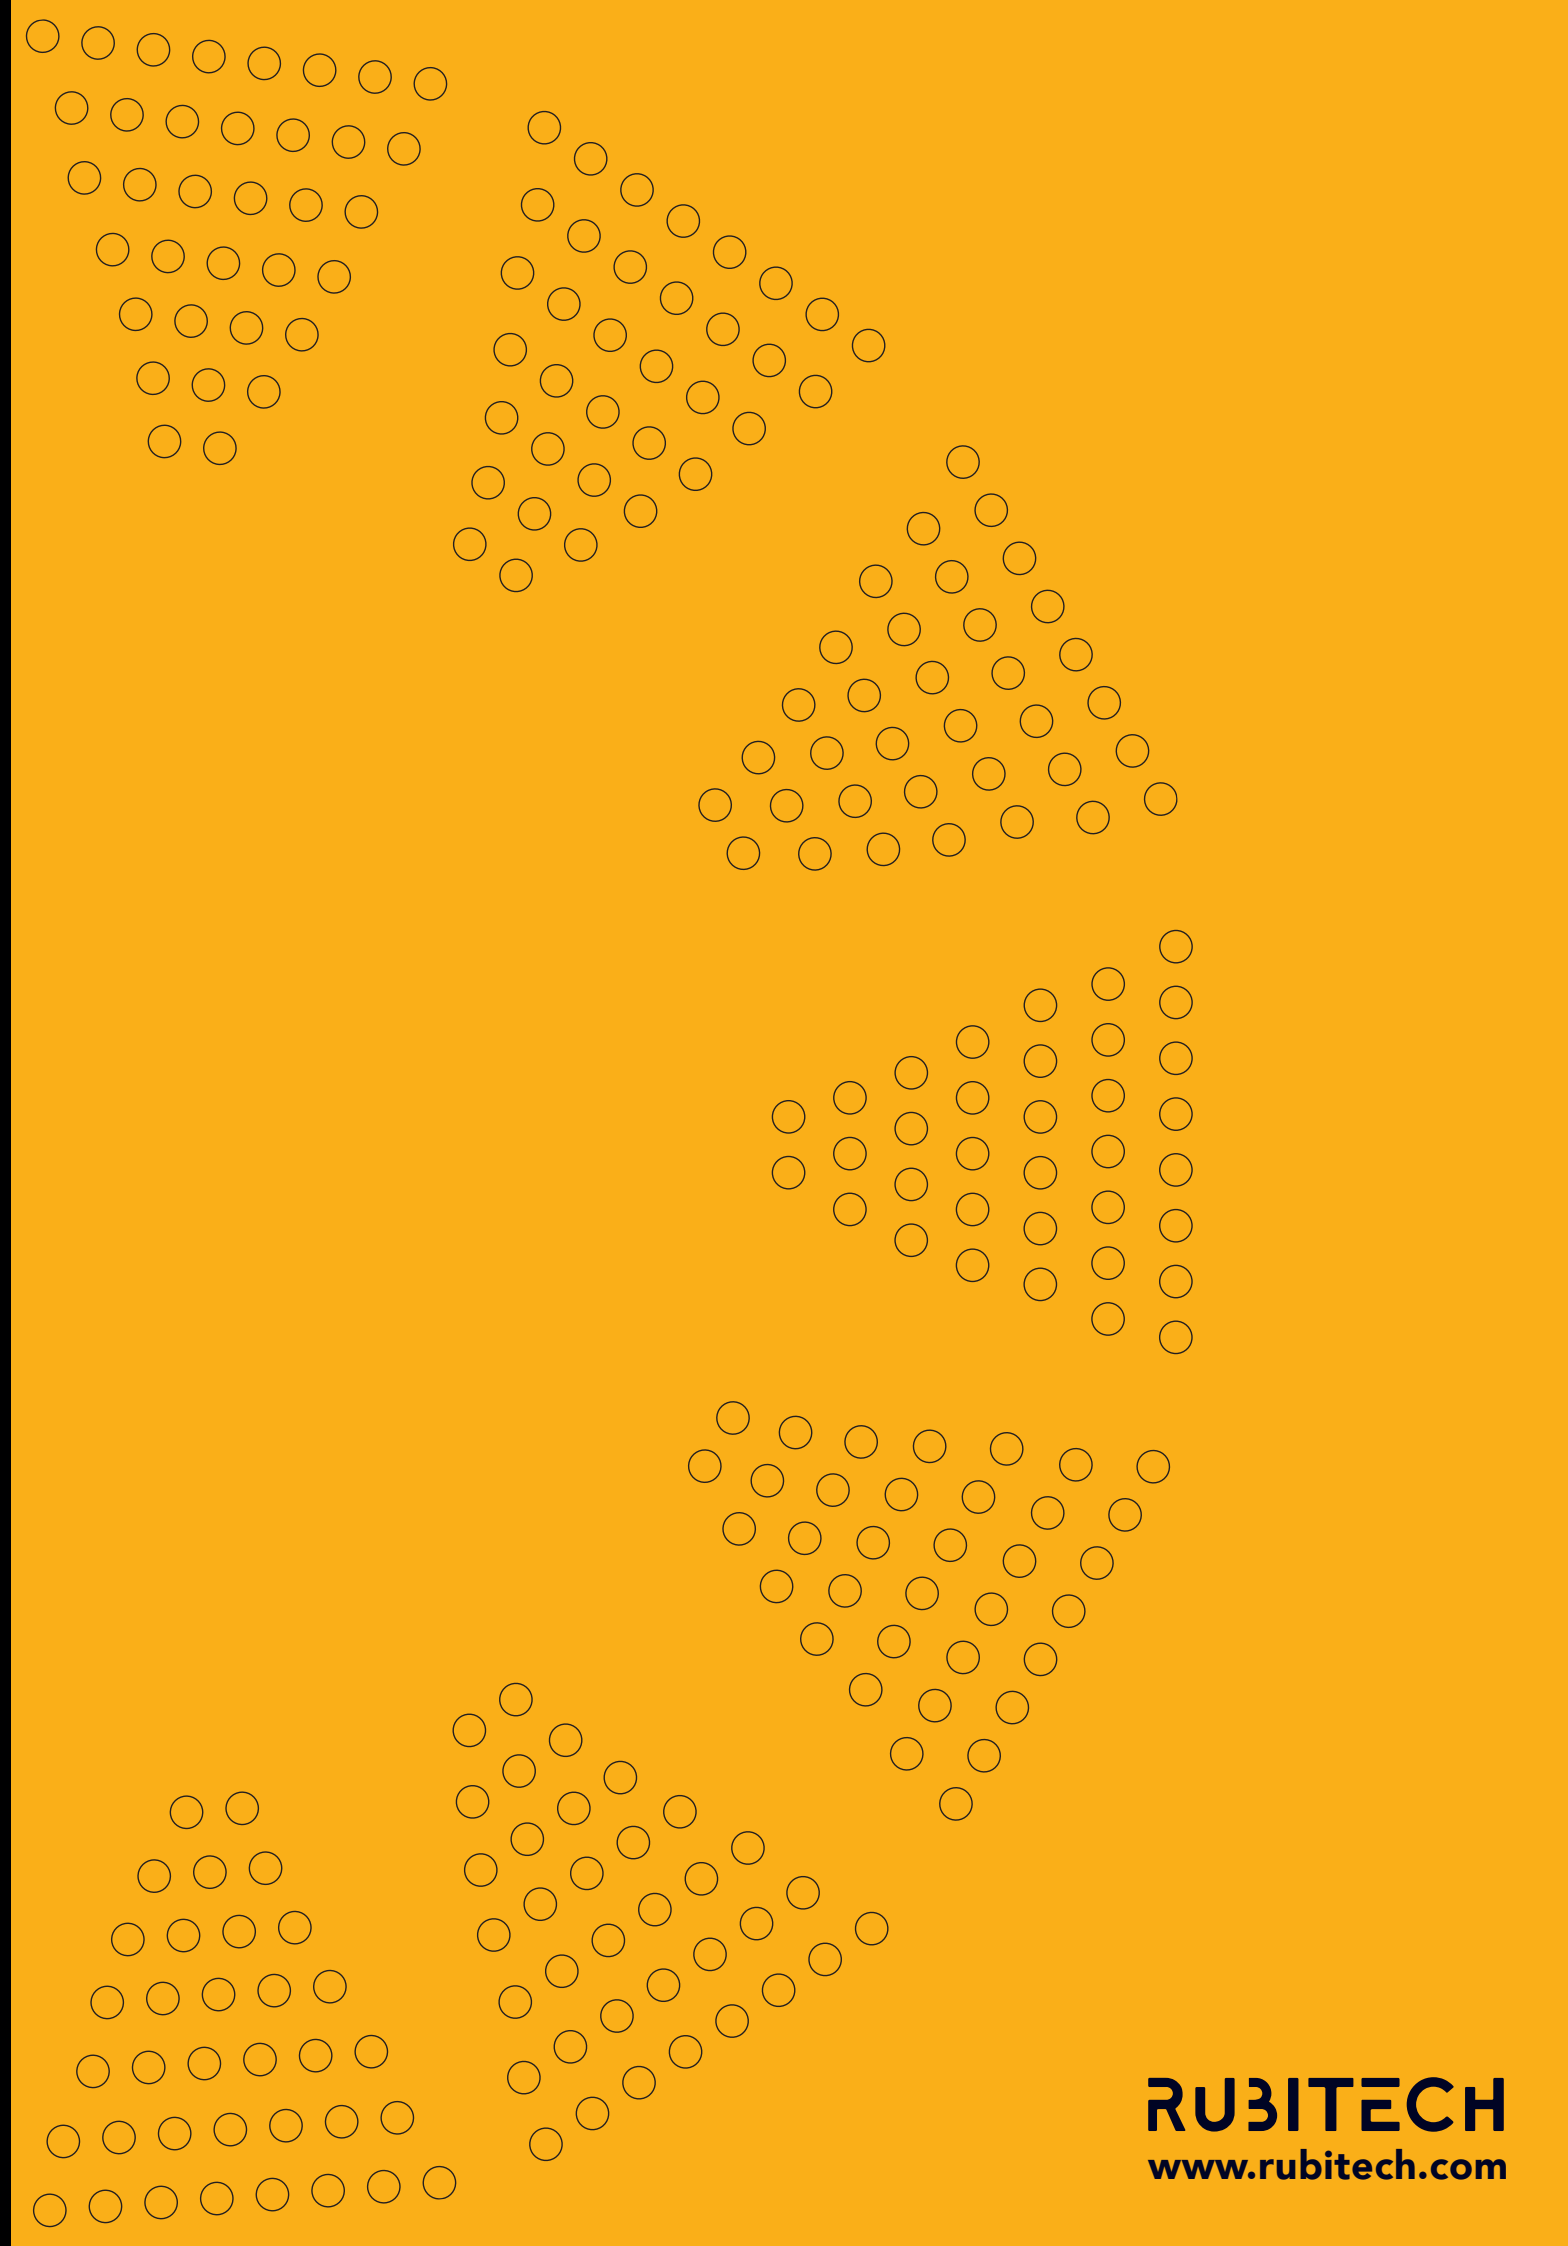

### Made in EU

Enabling delivery of consistent high quality, short lead times, flexible planning and low carbon footprint.

### Up to 10 year warranty

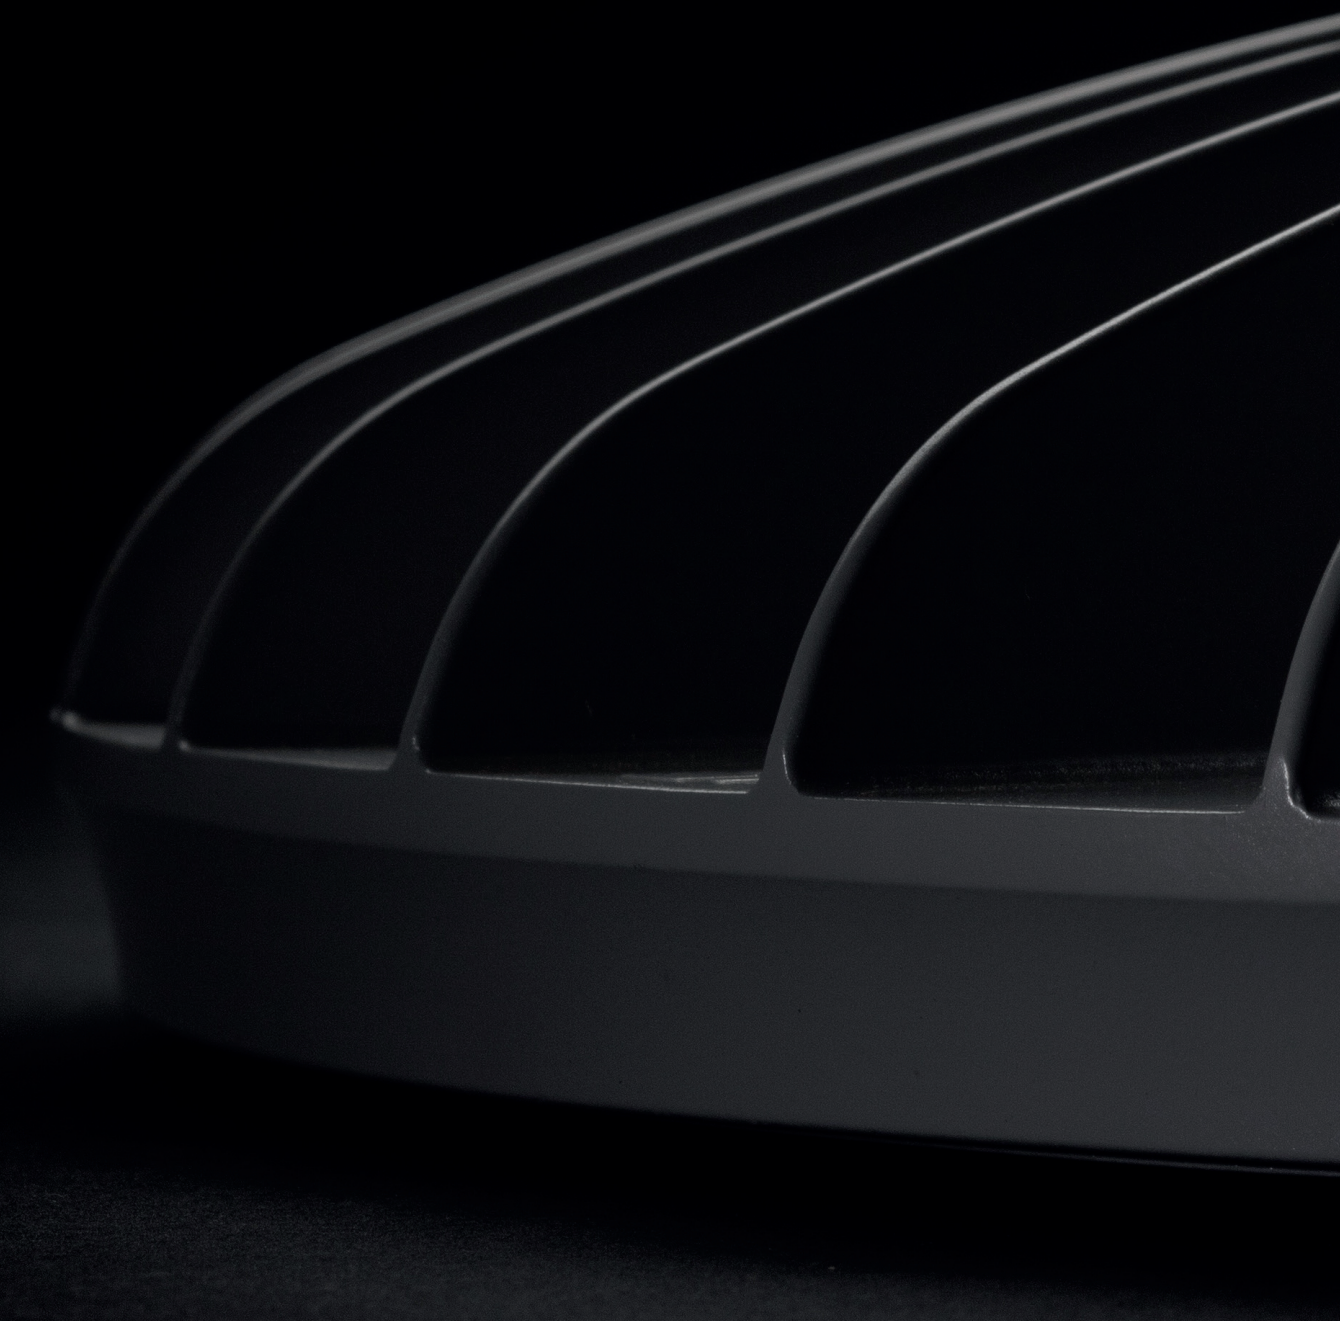

Due to a failure rate of less than one in a thousand, we will replace any lamp in the unlikely event that one might break down.

# INTENZ LED HIGHBAY BRIGHTENS UP YOUR WORKDAY

**LED technology is the light source of the future.**

Consistent and good quality light is key to enable a healthy and safe working environment. LED technology is the light source of the future.

Once installed high above your operational processes, a truly sustainable LED solution brings many, many years of uninterrupted, reliable lighting in your workplace.

Without hassle. Without unplanned maintenance. Even in the heaviest industrial circumstances.

This is why Industry leaders choose Intenz smart & heavy duty LED Highbay solutions. Developed to perform and developed to last. Regardless of the circumstances.

## INTENZ PRODUCT RANGE

### COOLHEART

#### INTENZ TEMPERATURE

**LED fixtures that keep cool when the environment gets hot**

-30°C up to +80°C  
18.000 – 40.000 lm  
up to 180 lm/W  
24/7 usage  
IoT ready

#### Heavy duty industries

Steel, Foundries, Wood,  
Pulp and paper, Glass, Welding

#### INTENZ OUTPUT

**Spot on lighting under high ceilings**

12.000 - 40.000 lm  
Up to 160 lm/W  
24/7 usage  
IoT ready

#### High end manufacturing

Automotive, Aviation and aerospace,  
Shipyards, Machine building

#### INTENZ EFFICIENT

**The efficient & cost effective solution**

12.000- 36.000lm  
Up to 150lm/w  
5 years warranty

#### Manufacturing & Logistics

Injection moulding, Furniture,  
Warehouses/Storage

**Consistent and good quality light is key to enable a healthy and safe working environment.**

**RUBITECH**  
brightens up

**< 0,1% PROVEN FAILURE RATE**

Even in the heaviest industrial circumstances.  
Up to 10 years Guaranteed.
